Local Haulage Charges for Import Shipments Moved via Sajaa ICD

Dear Customers,

Regional Container Lines (RCL) continues to monitor global port conditions to maintain service reliability across our ocean network. In view of recent operational advisories concerning delays in the evacuation of laden import containers from Khor Fakkan, alternative movement via Sajaa ICD is being arranged.

This surcharge is necessary to recover the additional transportation and handling costs incurred for routing these shipments through Sajaa ICD. This charge shall be borne by the consignee and comprehensively covers all diversion-related expenses.

Surcharge Details & Scope:

Container Type	Local Haulage Charge (USD)
DRY LADEN (20GP/40HC)	USD 1,450 / box
DG LADEN (20GP/40HC)	USD 2,200 / box
REEFER LADEN (40RF)	USD 2,300 / box
OOG LADEN	USD 2,550 / box

Applicability and Effective Voyages:

Applicability: These charges apply strictly to affected shipments moved from Khor Fakkan to Sajaa ICD, and containers currently on the water, discharged or gated-in.

Effective From: This charge is effective starting with the voyage **ESL BUSAN 02634W** (ETA AEKLF 25 September 2026) and will apply to all subsequent affected voyages until further notice.

Sincerely,

Regional Container Lines (RCL)
